

Maths Biography

My name is Miss Coates and I have been teaching at Hanbury's Farm for 5 years, I lead Science across the Federation and as of this academic year, had the fantastic opportunity to become Maths lead too.

I have always had an interest in Maths and when I was studying Primary Education at university, I chose Maths as my specialist subject. I am always joining in with Maths quizzes on the TV, hoping I will one day beat my Dad (his Maths knowledge is exceptional!)

As both Maths and Science lead, I understand the importance of Maths and that it is a fundamental part of our world; that it's not just about numbers, but supports and teaches critical thinking, problem solving and reasoning.

Across the Federation, our mission is to instil an 'I can' believe in all of our children so that they approach mathematics confidently and with a growth mind-set.
